SKILLS

PROGRAMMING
Java • Kotlin • React Native • Flutter • React.js

ANDROID PLATFORM
Android SDK•Calendar•Camera•Content Provider•Shared Preference•Activity•Fragment•Location•Resource•Notification•Wi-Fi•Bluetooth•BLE USB•Jetpack Components•App Release RxAndroid•Retrofit•Dagger2•MVVM URL Image Loading•Gson•Timber•Flavors•SQLite•Junit•Espesso App Debugging•Build Optimization Firebase•Google Maps•Jetpack Compose •REST APIs•JSON • XML

TOOLS
Android Studio • Git • JIRA Sonar •Jenkins •Nexus • IntelliJ IDEA•CI/CD

FAMILIAR
AWS • PHP • MySQL • NoSQL Node.js • Full Stack Web Development • DS and Algorithms•System Design Tensor Flow•SEO•Android NDK

EXPERIENCE

DBS ASIA HUB2 | Associate, Android Engineer
June 2018 - Present | Hyderabad, India
- Practicing software architectural patterns for the mobile platform – MFE (Micro frontend) with MVP and MVVM
- Working on sub-systems (UI, test, base app, analytics, encryption, networking, logging, exception handling, localization, mocking, push notification) framework for product development and testing
- Lead developer at Digibank Taiwan, developing end to end Investment product applying TDD with 85% code coverage
- Worked on bug fixing, analytics, tracking customer journey, and performance improvement of Digibank SG and POSB, Digibank HK and TW

ENTERPI | Android Developer
Aug 2017 – June 2018 | Hyderabad, India
- Developed Cross-Platform App with React- Native.
- Created react-native framework which has native to react-native and vice versa platform communication.
- Migrated existing android app UI to android material design
- Worked on 3+ native Android applications.

NUMBERMALL | Junior Software Engineer
Sept 2015 – Aug 2017 | Hyderabad, India
- Led the team efficiently to migrate to Android Studio IDE from existing Eclipse IDE.
- Worked on PhoneGap based Hybrid Mobile Application
- Lead the team in migrating the Hybrid App to native android app
- Released crash free production app within 6 months with 10000+ daily users.

PROJECTS

MY PORTFOLIO
ganesh76.github.io
This is a git hub web page that uses Jekyll, which is used to convert plain text into static websites and blogs, it's based on markdown syntax.

ANDROID APPS
DBS Digibank SG • POSB Digibank • DBS digibank TW • DBS digibank HK Martin's Mobile • NumberMall

AMAZON CLONE
https://github.com/ganesh76/amazon-clone
A react.js website showcasing similar UI to that of a amazon shopping homepage.

ACHIEVEMENTS

Year	Achievement	Organization
2020	APPLICATION SECURITY TITAN	DBS
2020	GAMIFICATION HACKATHON, Special mention	DBS
2018	Certified Data Engineer	DBS
